Da Vinci, Argentina • 2025 •
Enrolled

COMPUTER SYSTEMS

OnAliat, Mexico • 2022 - 2024

MECHATRONIC

BUAP, Mexico • 2015 - 2020

PROFILE

Engineer with experience in programming and optimization of automated systems. Driven by my passion for programming and video games, I am redirecting my career towards the gaming industry.

I aim to contribute to the development of innovative and creative experiences. I have training in C# and active participation in projects like game jams, which reinforces my commitment and determination to grow in this sector.

EXPERIENCE

REMOTE TRAVEL ASSISTANT

Adventure Holidays MX (2023 - present)

I designed and developed Excel macros to automate administrative processes. I planned personalized experiences for clients and managed relationships with suppliers, strengthening my skills in analysis, organization, and communication.

MAINTENANCE TECHNICIAN

Beumer Group, Mexico (2022 - 2023)

I reduced downtime in automated systems by quickly identifying and resolving technical issues, and optimized systems using Siemens PLC programming.

I performed preventive and corrective maintenance, improving operational reliability.

CONTROL ENGINEER

AR Mechatronics, Mexico (2021 - 2022)

I optimized production processes by programming Siemens PLCs, implemented preventive maintenance strategies, and coordinated logistics and inventories, strengthening my organizational skills, teamwork, and compliance with regulations.

ACTIVITIES

GLOBAL GAME JAM 2024

I developed a 3D video game in Unity in collaboration with artists and musicians. This experience was crucial in discovering my true vocation in game development, leading me to focus my professional career on this exciting industry.
